

## REACH (EC1907 / 2006)

### The Registration, Evaluation, Authorization, and restriction of Chemicals

REACH, a European Union regulation on chemicals and their safe use, was adopted as a formal regulation in the European Union on June 1, 2007. The legislation addresses the Registration, Evaluation, Authorization and restriction of Chemical substances, and creates many obligations on manufacturers and importers of chemical substances into Europe. REACH makes manufacturers and importers of chemical substances responsible for assessing and managing the risks posed by these chemicals, registering those chemicals, and providing the appropriate safety information to their end users.

While Dymax Corporation's (Dymax) chemical mixtures generally do not fall under program regulations for REACH, individual substances within our mixtures, and monomers used to create our oligomers and polymers do. REACH requires volume tracking for substances that Dymax imports, including monomers and additives of polymer mixtures, as well as volume tracking/reporting of Substances of Very High Concern (SVHCs).

Dymax has registered those substances governed by REACH in the centralized database maintained by the European Chemical Agency (ECHA) in Helsinki.

The majority of Dymax products do not contain substances on the REACH SVHC candidate list in concentrations greater than 0.1% by weight, (most recently updated as of January 16, 2020). <https://echa.europa.eu/candidate-list-table>. A limited number of products containing a substance which is new on the REACH SVHC candidate list may be found at:

[Link to Product List](#)

Inclusion on the SVHC candidate list does not mean that a chemical's use is forbidden. The substance concerned can be used with the appropriate the safety and application conditions.

More details about REACH can be found in the following link:

The data contained in this bulletin is of a general nature and is based on laboratory test conditions. Dymax Europe GmbH does not warrant the data contained in this bulletin. Any warranty applicable to products, its application and use is strictly limited to that contained in Dymax Europe GmbH's General Terms and Conditions of Sale published on our homepage [www.dymax.com/de/pdf/dymax\\_europe\\_general\\_terms\\_and\\_conditions\\_of\\_sale.pdf](http://www.dymax.com/de/pdf/dymax_europe_general_terms_and_conditions_of_sale.pdf). Dymax Europe GmbH does not assume any responsibility for test or performance results obtained by users. It is the user's responsibility to determine the suitability for the product application and purposes and the suitability for use in the user's intended manufacturing apparatus and methods. The user should adopt such precautions and use guidelines as may be reasonably advisable or necessary for the protection of property and persons. Nothing in this bulletin shall act as a representation that the product use or application will not infringe a patent owned by someone other than Dymax Corporation or act as a grant of license under any Dymax Corporation Patent. Dymax Europe GmbH recommends that each user adequately test its proposed use and application of the products before actual repetitive use, using the data contained in this bulletin as a general guide.
