

## REACH (EC1907 / 2006)

### The Registration, Evaluation, Authorization, and restriction of Chemicals

REACH, a European Community Regulation on chemicals and their safe use, entered into law on June 1, 2007. The legislation addressed the Registration, Evaluation, Authorization and restriction of Chemical substances, and creates many obligations on manufacturers and importers into Europe of chemical substances. REACH makes manufacturers and importers of chemical substances responsible for assessing and managing the risks posed by these chemicals and providing the appropriate safety information to their end users.

While Dymax Corporation's (Dymax) chemical mixtures and polymers generally do not fall under program regulations for REACH, individual substances within our mixtures, and monomers used to create our oligomers and polymers do. Principle within the requirements of REACH is volume tracking for substances we import that are subject, including monomers and additives of polymer mixtures, and volume tracking/reporting of Substances of Very High Concern (SVHCs).

Dymax has registered those substances we import over 1 metric tonne in the centralized database maintained by the European Chemical Agency (ECHA) in Helsinki.

Dymax regularly reviews its portfolio of chemical substances, and reports that we utilize no SVHCs above notification thresholds (generally 0.1% w/w) as reported on the ECHA candidate list dated as periodically updated by ECHA (most recently updated as of June 27, 2018). <https://echa.europa.eu/candidate-list-table>

Safety Data Sheets (SDSs) for Dymax's European products conform to Europe's Classification, Labeling and Packaging (CLP) format, as specified under European requirements.

More details about REACH can be found in the following link:  
[http://ec.europa.eu/environment/chemicals/reach/reach\\_intro.htm](http://ec.europa.eu/environment/chemicals/reach/reach_intro.htm)

For more information on Dymax's products and REACH, send questions to [Product\\_Regulatory@dymax.com](mailto:Product_Regulatory@dymax.com).

The data contained in this bulletin is of a general nature and is based on laboratory test conditions. Dymax Europe GmbH does not warrant the data contained in this bulletin. Any warranty applicable to products, its application and use is strictly limited to that contained in Dymax Europe GmbH's General Terms and Conditions of Sale published on our homepage [www.dymax.com/de/pdf/dymax\\_europe\\_general\\_terms\\_and\\_conditions\\_of\\_sale.pdf](http://www.dymax.com/de/pdf/dymax_europe_general_terms_and_conditions_of_sale.pdf). Dymax Europe GmbH does not assume any responsibility for test or performance results obtained by users. It is the user's responsibility to determine the suitability for the product application and purposes and the suitability for use in the user's intended manufacturing apparatus and methods. The user should adopt such precautions and use guidelines as may be reasonably advisable or necessary for the protection of property and persons. Nothing in this bulletin shall act as a representation that the product use or application will not infringe a patent owned by someone other than Dymax Corporation or act as a grant of license under any Dymax Corporation Patent. Dymax Europe GmbH recommends that each user adequately test its proposed use and application of the products before actual repetitive use, using the data contained in this bulletin as a general guide.
